Continued Cold.

# TONOPAH DAILY BONANZA

VOL. XIX, NO. 130.

TONOPAH, NEVADA, THURSDAY EVENING, NOVEMBER 20, 1919.

PRICE 10 CENTS

# \$1.35 IS BID FOR SILVER

## ORIENTAL DEMAND PUTS PRICE ABOVE COINAGE VALUE

### SCOFF AT OFFER OF ADVANCE

(By Associated Press.)  
WASHINGTON, Nov. 20.—An increase in wages of 15 cents per ton and 20 per cent over the existing day scale to become effective immediately the bituminous miners returned to work, was offered by operators at a meeting today of the wage scale committee in the central competitive fields. John Lewis, acting president of the United Mine Workers, declared the increase was totally inadequate, adding that the miners had not assumed the offer had been made seriously. Nothing was said about reduced hours, although the miners had insisted on a thirty-hour week.

### BANDIT THANKS RAILROAD FOR HIS PLUNDER

(By Associated Press.)  
CASPER, Wyo., Nov. 20.—William Carlisle, train bandit, walked into the Western Union office here today, while scores of heavily armed men searched the surrounding country for him, and sent a telegram to the Union Pacific railroad office at Cheyenne thanking the railroad for the money he secured from passengers on the Los Angeles limited train which he held up near Medicine Bow Tuesday night.

### TOWNS TAKE UP THE HIGH COST

(By Associated Press.)  
SAN FRANCISCO, Nov. 20.—Efforts being made by counties and municipalities to reduce the high cost of living as it relates to their particular jurisdiction were outlined by delegates to the state and county municipal purchasing agents associated here today. Centralization of all important purchases in the purchasing agent was an outstanding topic.

### MINING CONGRESS STUDIES STRIKE

(By Associated Press.)  
ST. LOUIS, Nov. 20.—As a means of allaying industrial unrest the American mining congress today was asked to appoint a committee to investigate methods in use at plants where labor troubles successfully have been combated and prepare a program acceptable both to labor and capital.

**HISTORICAL JAIL CLOSED.**  
(Correspondence of Associated Press.)  
LONDON, Oct. 18.—Reading "The Ballad of Reading Gaol" and part of "De Profundis" is to be closed.

**THE WEATHER**

Temperature extremes	43	42
Maximum yesterday	48	42
Minimum yesterday	29	31

### World's Greatest Is Warship Built At Mare Island

(By Associated Press.)  
VALLEJO, Calif., Nov. 20.—The super-dreadnaught California was launched from the navy's shipbuilding plant at Mare Island today. The battleship, rigged up to slip the California in the narrow channel failed to hold and the vessel slid into shallow water. Tugs soon were engaged endeavoring to pull her out into the stream.

VALLEJO, Calif., Nov. 20.—The electrically driven super-dreadnaught was added to the United States navy fleet today when the California was launched at the Mare Island navy yard here.

The California is expected to cost more than \$15,000,000 and will carry twelve 14-inch guns. Besides being electrically driven, the new warship will be electrically operated from her guns to her potato-peeling machine.

As the great craft slid into the water she was cheered by Governor William D. Stephens, of California, his daughter, Mrs. Randolph T. Zane, who sponsored the war vessel, and thousands of spectators. While her launch was still warm the keel of a great companion super-dreadnaught, the Montana, was laid within it.

The California's keel was laid October 18, 1915, not during the war but the men who fabricated her turned their tools to the knocking together of other and smaller warcraft designed to fight the submarine. For two years not a rivet was driven but upon the signing of the armistice the great hull again swarmed.

### CONSOLIDATED OF ARROWHEAD

The Arrowhead Consolidated Mining company is completing its organization in Tonopah today and this afternoon the officers and directors will be elected with J. Henry Goodman as president, and James F. McKay, Al McCoy and Al Thacker in the list of directors. This company is developing a promising ledge parallel with the main Arrowhead ledge which the chief stockholders believe will prove as rich as the original discovery. The best proof of the faith of the management in its holdings is the fact that a substantial working shaft is being sunk and the collar sets are just receiving the final touches preparatory to erecting the gallow frame which will be the first in the district. The shaft is down seventy-five feet in sulphides and the intention is to sink another 100 feet before cross-cutting. In sinking a small shaft of ore seventeen to eighteen inches wide carrying good values was cut in the shaft.

President Goodman also arranged today for delivery of a gasoline hoist which will be installed in ten days, making the first complete mining equipment in the camp, which stands as a favorable precursor of what is likely to be accomplished by this energetic management. The Arrowhead Co. owns ten full claims.

### AUSTRIAN VIOLINIST CANCELS CONTRACT

(By Associated Press.)  
LOUISVILLE, Nov. 20.—At the suggestion of Mayor George Smith, Fritz Kreisler, the Austrian violinist, cancelled his contract for appearance at one of the leading theaters here tonight.

The highest price paid for silver in sixty years was quoted today in New York where the official quotation was announced at \$1.32 1/2, which was said to be based on the demand for export to China. In San Francisco \$1.35 was offered for any part of 500,000 ounces for today's steamer without bringing any offer. Last week when the official quotation was \$1.25 in New York, Manager Fred Bradshaw sold Tonopah Belmont bullion for \$1.29. A few days later when the metal was quoted at \$1.27 brokers bid \$1.15 for bullion to go out that day on the steamship Columbia, which was due to leave for the Orient.

### WILSON MAKES NO STATEMENT ABOUT TREATY

(By Associated Press.)  
WASHINGTON, Nov. 20.—President Wilson will make no statement today on the failure of the senate to ratify the peace treaty. It was said at the White House today. Although not changing technically the delicate relations between the United States and Germany, the senate's failure to ratify the peace treaty is expected by administration officials and diplomats to have an indirect result of some importance on steps now being taken to restore the world to a peace basis. One of the first consequences is likely to be the halting of negotiations in Paris which will restore full commercial and diplomatic relations between Germany and the powers which have ratified the treaty.

The congress will meet December 1, but not even the most ardent supporters of the treaty believe it would be possible to take it up again at the outset of the session.

The Christmas recess is expected to intervene before much could be accomplished with the result that a clear field for treaty consideration would not be opened before January 1. Once the great powers have gone ahead with their establishment of full trade and diplomatic relations with Germany, officials say new arrangements will have to be made by the United States. At present the war arrangement by which Spain is taking care of American interests in Germany, continues in force and this is not expected to be disturbed.

### DISTRESS CALL FROM A SHIP

(By Associated Press.)  
NEW YORK, Nov. 20.—A S. S. call was received here today by the coast guard office from the steamship Roman bound from New York for Marseilles. The steering gear of the Roman had broken down and the ship is being buffeted by rough seas.

### BIRTHDAY PARTY

A delightful birthday party was given last evening in honor of Raymond Grant on his tenth birthday. Delicious refreshments were served after which many games were played. The following were present: Newton Cronin, Jack Eden, Jasper Palmer, Howard Sheerin, Tasker Easton, John Murphy, Emmet Engram, Jack McDonald, Gordon McDonald, James Clifford, Reynold Clifford, Sol Clifford, Leslie McVeigh, Bernard McAvoy, Albert Easton, and Ella Grant, Rita McVeigh, Blanche Collins, Anna Grant and Raymond Grant.

### BURIED AT CARSON CITY

The funeral of the late Orville J. Olson, member of Tonopah lodge No. 1062 B. P. O. E., was conducted yesterday afternoon at Carson City under the auspices of the Elks, who followed the ritual prescribed for the occasion.

### MUST CLOSE ALL SHOPS FOR FUEL

(By Associated Press.)  
CHICAGO, Nov. 20.—Regional directors of railroads today had a hand in dealing with curtailment of non-essential industries and necessary passenger traffic and extraordinary efforts to conserve and distribute the nation's steadily diminishing supply of coal. Except in the West Virginia field upon which it was announced, the rest of the country would draw for absolute requirements, there was little hope today for increased production as a majority of the bituminous miners still disregarded the strike recall order.

### OLD MILITARY TRAINING BEST

(By Associated Press.)  
WASHINGTON, Nov. 20.—The army system of military training adopted years ago and now used at West Point was fully justified by experience in the world war, Major General John Chamberlain, inspector general, declared today in his annual report.

### COUNTRY WILL REMAIN DRY

(By Associated Press.)  
WASHINGTON, Nov. 20.—President Wilson will make no move to rescind the war time prohibition act until peace has been declared formally, it was stated officially today at the White House.

### NEW CALIFORNIA SHIPPING ORE

Manager Harry Moore of the New California Tonopah mine is ready to place that property on a steady shipping basis as soon as shipping conditions offer better facility for handling ore. The first carload taken out of the new management went to the coast in full and realized \$42.50 a ton. This ore was extracted from the 600-foot level where a raise was sunk up to the 400 for the more economical handling of the ore. The orebody on which the company is working is 50 feet south of the shaft.

### FRANCE IN FEAR OF THE FUTURE

(By Associated Press.)  
PARIS, Nov. 20.—While failure of the American senate to ratify German peace treaty has apparently alarmed the French, it seemingly is not agitating the average Frenchman so much as fear that the States may not ratify the joint agreement with England for defense of France, which is uppermost in the minds of all French people.

CARIO, Nov. 20.—Ten persons were killed and 120 injured in a riotous demonstration which continued here all day. British troops were stored order.

### SPECTACULAR ORE FROM ARROWHEAD

Several sample sacks of specimens were brought in last night from the workings of the Arrowhead Mining company by Capt. Ralph A. Meyer, who displayed them this morning in the lobby of the Niagara hotel to a crowd of mining men who were greatly interested in the rich ore. The ore, which is a mixture of silver and copper, is of a high grade and is estimated to be worth \$1.35 a pound. The ore is estimated to be worth \$1.35 a pound.
